

AGENDA

CITY OF TWINSBURG COMPREHENSIVE PLAN UPDATE COMMITTEE MEETING

**April 26, 2021
6:00 pm**

This third meeting of the Twinsburg Comprehensive Plan Committee will take a deep dive into the subject of “Sustainability Practices.” For this purpose we will provide an overview and involve Committee members in a discussion of what “Sustainability” means to them, what “Sustainability” practices have been managed by the City in the past, and Committee opinions about what is practical for the city to pursue in the future.

Please refer to the “ILG Sustainability Best Practices Framework” document that was emailed to all committee members on February 3rd. This document will provide information relevant to the discussions:

Part 1 – What does the City’s tag line “Naturally Beautiful” mean to you?

Part 2 – What “Sustainable Practices” does the City perform currently?

Part 3 – In what context can the City address “Sustainability”?

Part 4 – What practices would the Committee feel are practical to pursue in the future?
