

## ***A Message from the City of Twinsburg Director of Parks and Recreation Updates to Youth Summer Camp Pricing and Membership Benefits***

### **What is Changing?**

To make things simpler and fairer for everyone, we are returning to an established Residency-Based pricing structure. Starting this season, summer camp rates will be based strictly on whether you live within the City of Twinsburg. Because of this, we will no longer be offering the “Annual Member Discount” for those who live outside the city.

### **Why the Change?**

Our goal is to provide pricing that puts our residents first and a registration process that is fair, transparent, and efficient. Over the past 3 seasons, this discount program led to registration delays, and inconsistencies with department program pricing.

*By moving back to this model, we can:*

- **Prioritize Twinsburg residents:** As a city-run department, we want to make sure our residents—who support our programs through their taxes—always get the best possible rate.
- **Streamline registration:** This new way is an easier process for our systems to handle, which means smoother, faster sign-up process for you on opening day.
- **Consistency:** This aligns our camp pricing with the majority of our other department offerings.
- **We love our non-resident members** and are so glad you're part of our fitness family. While this one specific camp perk is retiring, your membership continues to provide full access to our premier facilities, group fitness classes, and member-only events throughout the year.

Warm regards,

*Jennifer Betenson*
