

THINK GLOBALLY, ACT LOCALLY

Hosted by the Twinsburg
Environmental Commission

Adults
& Teens

As the City of Twinsburg continues to search for ways to support Responsibility and Sustainability at every level, the Environmental Commission for the City of Twinsburg invites YOU, our community, to join us as we focus on the key intersections of Recycling and Water Stewardship. TEC's Chairman, Chuck Bonacci, and Twinsburg High School's Environmental Science teacher, Cynthia Kurt are the guest speakers. Their presentations will focus on:

- How citizens influence and impact these systems, comprehending the problems we create and illuminating ways to fix them
- Best environmental practices (do's and don'ts)
- Waste Management and Recycling
- Water Stewardship

Our goal is to provide a better understanding of the "what", "why", and "how" so we can make a more positive impact together in our community. Q&A to follow.

WEDNESDAY, NOVEMBER 9TH • 6:30 PM
MEETING ROOMS 1, 2 & 3

Register by calling 330-425-4268 x2 or visit the online events calendar at twinsburglibrary.libcal.com/calendar

From time to time, photos will be taken of patrons attending Twinsburg Public Library events. We reserve the right to use these photos for communication, promotional, and marketing purposes.
